

# BROOKFIELD INSIDER

E-Newsletter for the Month of SEPTEMBER & OCTOBER 2025

*"A teacher affects eternity;  
he can never tell where his influence stops." - Henry Adams*

The months of **September** and **October** brought with them moments of reflection, resilience, and celebration. As we paid tribute to our mentors on **Teachers' Day**, we were reminded of the unwavering dedication and compassion that shape young minds and futures every single day. Their silent yet powerful influence continues to inspire generations to dream and to do.

**September** also witnessed the devastating floods in Punjab, which reminded us of the unpredictable power of nature and the strength of human solidarity. In the face of adversity, communities stood together, proving that empathy and unity are our greatest resources in times of crisis.

With the arrival of **October**, the air filled with the spirit of festivity—**Dussehra**, **Diwali**, and other celebrations illuminated our hearts with hope and togetherness. As the lights of the festive season glow, may they also light our way toward compassion, learning, and gratitude.

At **Brookfield International School**, we continue to nurture these very values—knowledge, kindness, and community—believing that true education extends beyond the classroom.

*"Education is not the filling of a pail, but the lighting of a fire."  
- William Butler Yeats*

- WORLD FOOD DAY
- DIWALI BASH
- PARENT TEACHER MEETING

# SAFETY DRILL AT HOME & SCHOOL

**Safety is a shared responsibility.**

Making kids aware about dangers of fiddling with some things at home and school is very important and an essential part of the safety drills in the school. As children are very curious about each and everything therefore, they like to touch and see various new things in their surroundings.

It is our duty as parents and educators to teach them about harmful things and safe options too. As part of the safety drill about various common things found at home and school , our educators gave a brief demonstration to kindergarten kids about the safety at home and school including the school bus.

# GRANDPARENTS DAY CARD MAKING

Grandparents are special people  
With wisdom and pride.  
They are always offering love and kindness  
And are always there to guide.  
They often make you feel so confident and strong  
Their arms are always open  
No matter what you did wrong.

On **11th September** our munchkins made beautiful cards full of glitters and love for their grandparents. They shared so many stories about their **nannu & nanni** and **daddu & dadi** with their educators excitedly. At **BFIS** we try to inculcate the values of respect and care for elderly at home in our kids through various activities.

# HINDI RECITATION COMPETITION

गर्व हमें है हिंदी पर, शान हमारी हिंदी है,  
कहते-सुनते हिंदी हम, पहचान हमारी हिंदी है।

Hindi Diwas is celebrated every year on September 14, to promote and honour the cultural heritage of Hindi, India's official language. Hindi in Devanagari script is an Indo-Aryan language, the third most spoken language globally.

Our kindergarten stars lit up the stage with their innocence and charm during the **Hindi Poem Recitation Competition held on 12th September to commemorate Hindi Diwas**. Dressed with beautiful props, the little ones recited soulful poems on trees, India, mother, and seasons, leaving the audience spellbound. Our panel of judges applauded the children's confidence, clarity, and expression, appreciating their heartfelt efforts. It was truly a delightful morning, celebrating the joy of language, rhythm, and imagination through our tiny poets.

# PRIZE DISTRIBUTION

**Every accomplishment begins with the decision to try.**

Our little stars brimmed with pride as they received their certificates from our esteemed **Principal Mrs Vandana Bansal** during the prize distribution ceremony of the **clay modelling and Hindi poem recitation competitions**. The moment celebrated not just their victory, but also their confidence and expression. It was a proud occasion for the young learners and an inspiring sight for all present.

# FIRST AID DRILL

Be the first to act when an emergency arises

First Aid boxes are a must for every household and at **BFIS** we ensure that our little ones have a proper knowledge about the basic things kept and used in the box. On **15th September** a first aid drill was conducted by our school doctor and educators where the little ones were made aware about the simple things that can be done in the case of emergencies.

# PINK & PURPLE DAY CELEBRATION

**Colours are the poetry of life,  
painting our world with emotions.**

On 19th September our munchkins came dressed up in the shades of pink and purple coloured dresses to celebrate pink & purple day. Exposure to a variety of colours helps in sensory development by engaging a child's sight and encouraging them to differentiate between different hues and shades. Bright and vibrant colours can excite and energize a child, while softer tones can have a calming effect. Our specific colour days are spread out through out the academic session of kindergarten for a better understanding about the colour palette.

# STRANGER DANGER (STORY ENACTING)

These are the rules that we obey, to keep us safe at school and play;  
Practice staying out of danger, never talk to any stranger.

In today's world it is so essential to equip children with appropriate knowledge about personal safety and what better way can there be to do so than the story enacting regarding the same.

On **26th September** our kindergarten educators enacted the story of Red riding hood and Hansel and Gretel to teach children about the concept of stranger danger and safe touch. The stories were twisted to add on some current situations and gadgets for better effect.

Teaching personal safety and awareness is crucial for every child and at BFIS we ensure that our little ones are equipped with proper knowledge. We ensure that children can navigate their environment securely and be more aware of their surroundings. Children should know how to protect themselves from harm, understand Safe behaviours and know how to respond in different situations. We teach about their body boundaries.

# ROAD SAFETY DRILL

Use your eyes and ears before you use your feet,  
Look and listen before you cross the street.  
When you ride your bike at night,  
Make sure you wear something white.

At **BFIS** we ensure that road safety education is not just confined to the traffic lights for our kindergarten kids.

In today's scenario where road rage is becoming an everyday menace, it is our duty to educate kids from very young age about the basic etiquettes and manners while travelling and their civic responsibility to make them better citizens tomorrow. During the road safety drill of kindergarten on 30th September our little ones participated in various activities related to the road safety rules.

# SOLO SINGING COMPETITION

“Singing connects the mind with the heart and the heart with the soul.”

Music is the soul of life, and this spirit came alive at Sur Tarang – the Solo Singing Competition for our kindergarten parents. The event turned out to be a resounding success as parents captivated the audience with their melodious and soulful renditions. Each performance reflected not only musical talent but also the joy of self-expression. The panel of judges applauded the enthusiasm and efforts of the participants, making the atmosphere truly vibrant and heartwarming. **Our esteemed Principal, Mrs Vandana Bansal, felicitated the winners with warmth and pride. Truly Sur Tarang was a celebration of music, joy, and togetherness!**

# DUSSEHRA CELEBRATIONS

Our school campus echoed with the chants of **Jai Shri Ram** as our little ones came dressed up in various characters of Ramayana. They danced and enacted various scenes of Ramayana guided by their educators.

The day was filled with many activities like colouring the Dussehra sheets and take aways, chanting bhajans and relishing the special food packed for the day by their moms. Dussehra is not just about burning the effigies, it's about igniting the hope within that good always triumphs over the evil. On this day we teach children that we should always have strength and courage to fight against the wrong and stand for the right.

# SWATCHHATA ABHIYAN

**A clean environment is a happy environment**

Keeping our surroundings neat and clean is the basic requirement and at BFIS we teach to our children right from the kindergarten to be mindful about where to throw the trash and how to keep the surroundings clean. They were engaged in the cleanliness drive to celebrate the Swatchhata Abhiyan and to commemorate the teachings of Mahatama Gandhi.

# TABLE MANNERS & ETIQUETTES

Good manners reflect something from the inside.  
An innate sense of consideration for others and  
respect for self.

At **BFIS**, we believe that learning extends beyond  
the classroom. Our kindergarten children  
participated in a **Table Manners and Etiquette  
Drill**, where they learned the importance of good  
dining habits — from using cutlery properly to  
saying “**please**” and “**thank you.**” Such activities  
nurture holistic development, fostering confidence,  
discipline, and social grace in our little learners.

# WORLD FOOD DAY CELEBRATION

Food is life, Share it wisely.

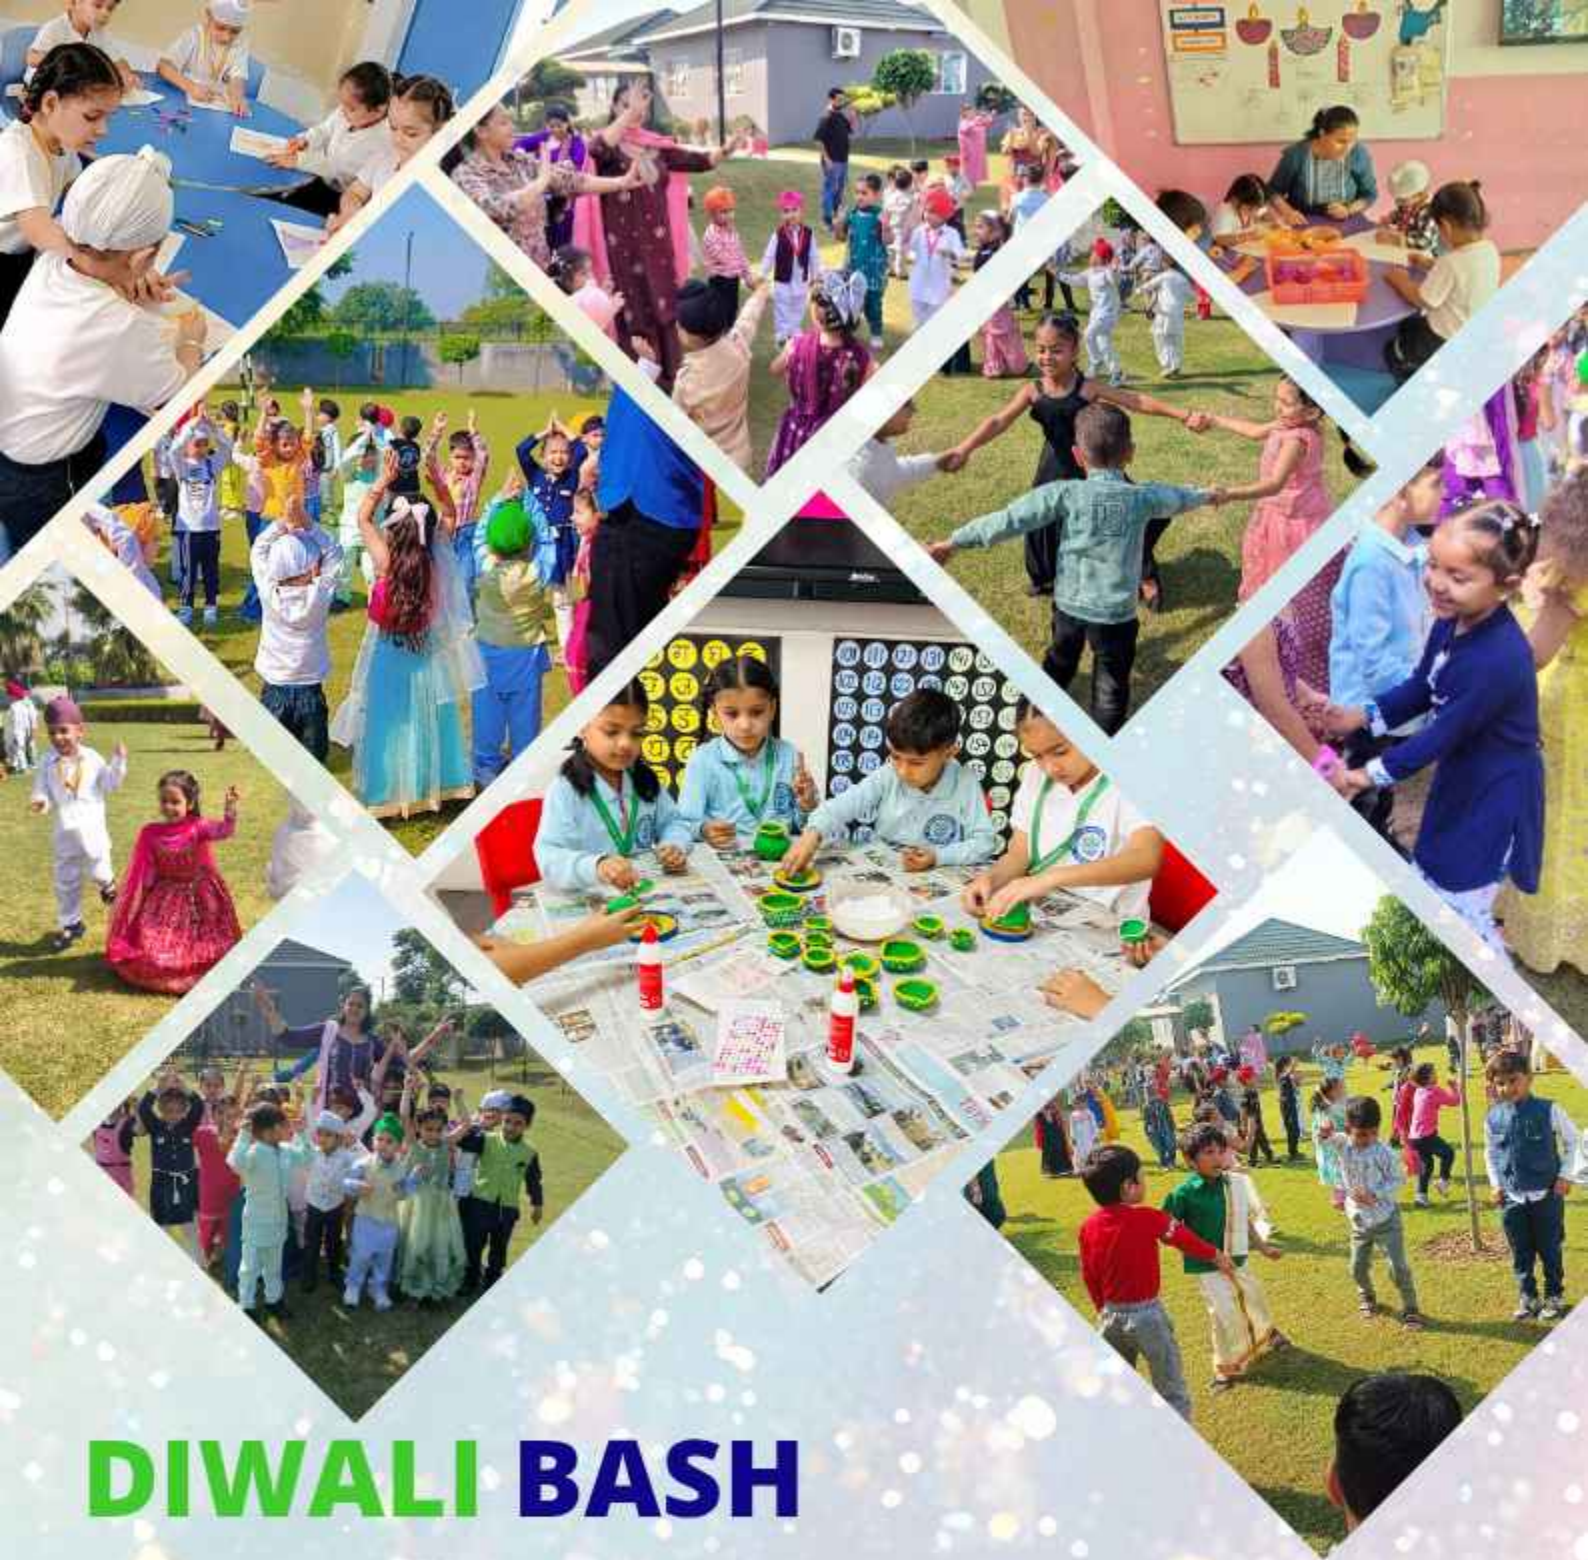

To mark **World Food Day on 16th October**, a vibrant **Food Exhibition** was organized for our kindergarteners, where an array of food items — from fresh fruits and vegetables to grains and processed foods — were beautifully displayed.

Our educators engaged the little ones in meaningful discussions about healthy and unhealthy food choices, nurturing in them the understanding of balanced eating habits. The children were also sensitized about the importance of avoiding food wastage and encouraged to express gratitude towards our hardworking farmers, who make every meal possible.

We were honoured by the gracious presence of our esteemed Patron, Mrs. Neelam Singla, and Principal, Mrs. Vandana Bansal, who interacted warmly with the children and lauded the educators for their creative efforts in making learning both enriching and joyful.

# DIWALI BASH

The spirit of festivity and togetherness filled the air as our little ones celebrated **Diwali** with great enthusiasm and joy. Dressed in vibrant ethnic attire, the kindergarten kids looked absolutely delightful, radiating the essence of the festival of lights.

The day began with children engaging in a Diya decoration activity ,where their creativity shone bright as they beautifully painted and adorned earthen lamps with colours ,glitters and sequins. Adding to the festive cheer, the children performed a lively dance that captured the joy and energy of the season. The celebration concluded with warm wishes for a safe and eco friendly Diwali, as educators gently reminded the children about the importance of sharing happiness and caring for the environment.

# PARENT TEACHER MEETING

The **Parent-Teacher Meeting** for our kindergarten students was conducted on **25th October** to discuss the **First Term Internal Assessments and Progress Reports**. The session provided an excellent opportunity for parents and teachers to engage in meaningful conversations about each child's overall growth and development.

Educators shared valuable insights into the children's academic progress, social skills, and behavioural development. Parents appreciated the detailed feedback and the individual attention given to every child. The meeting reinforced the strong partnership between home and school—a vital link in supporting our young learners' holistic development and helping them reach their fullest potential.

# SIGHTSEEING SPOT

## SUKHNA LAKE

In the month of **September**, our young learners embarked on an enriching virtual tour of the **Sukhna lake**. They got to see and learn about the lake, the activities that can be done there, and the joy of spending time amidst nature. Through this they understood not just the beauty of **Sukhna lake**, but also the importance of appreciating and caring for our natural surroundings. Some of the children visited the lake in person and shared their experience with their class educators.

# SIGHTSEEING SPOT

## JAPANESE GARDEN

This **enchanting garden** is located in **sector 31 of Chandigarh**, is a masterpiece of Japanese architecture and design. This garden offers a journey through Japanese aesthetics, mindfulness, and artistry. At night the Japanese lanterns cast a warm glow along the walkways, creating an enchanting atmosphere. A virtual tour of the same in the class took our little ones on a mesmerizing journey whereas few lucky ones even visited the place with their parents.

# CLASS OF THE MONTH

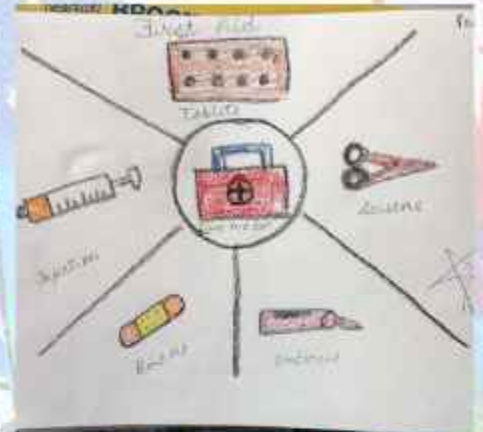

## NURSERY SIGMA

**Nursery Sigma** is a vibrant and lively haven of learning, brimming with boundless energy and the uncontainable curiosity of its shining sunbeams. Guiding this spirited group is a truly exceptional educator **Mrs Neha Phull**, whose charm and compassion create an atmosphere of warmth and security. Her ability to understand the nuances of every child's personality fosters a deep connection, making her not just a teacher but a source of inspiration and comfort.
